Gary-

Enclosed are 3 centaurs that I'm sending to Don - if interested in any, let me know ASAP-

The one with the feather whip is the one I told you about - she is an "exotic dancer" geisha type - though she can be a bit on the dominating side - she is a dark mahogany bay with golden dapples - blk hair, green eyes - named "Toi" (I really want to do more with this one, she drew herself...)

on the other 2, the one with the clouds will look much better in color (depth, etc.) than I don't know what color yet, she has no name yet either - and the other is probably going to be a red/gold chestnut (red/blonde hair + tail) she should be a looker too - kinda young like Ambra - her name is "Heather."

Hope you like them - more to follow soon -

Happy New Year!
